## A Whole New Level of Used Car Protection

We all know that vehicles are not created equal and from our experience, mechanical and electrical breakdown is more likely to occur when a vehicle has been used for more than 3 years and the chance of breakdown will increase significantly over time.

You have the security of the original manufacturer's warranty when you purchase a new vehicle but if you are looking for a pre-owned vehicle who can protect your vehicle against the cost of breakdown? We are here to provide that protection.

**Asia Care Warranty** offers protection that begins immediately after the original manufacturer's warranty expires or at the point of vehicle sale if the original manufacturer's warranty has already elapsed.
